

# Regency Road to Pym Street Project

## Night and day works – APA Gas relocations

The Department of Planning, Transport and Infrastructure is contacting you to advise of upcoming day and night works that APA Gas is conducting as part of the Regency Road to Pym Street (R2P) Project.

The works will involve the relocation of gas infrastructure, including the installation of new pipes and regulators. These works are being carried out for APA Gas by contractor Seychells.

Night works will be carried out on the western side of South Road, south of the intersection with Regency Road.

Day works will be carried out on Crosley Road and Bayer Avenue (near Regency Road) and on side streets adjacent to South Road between Regency Road and Pym Street, including on Pym Street itself. Day works will commence on **Monday, August 19, for approximately 5 weeks.**

Night works will commence on **Thursday evening, August 15, for approximately 4 weeks.** Night works will be conducted between 7pm and 7am in order to minimise the impact to road users and businesses and to complete the work safely.

Speed and lane restrictions will be in place in the vicinity of the works and some minor road closures may be required. Access to businesses will be maintained during the works. Any properties that will be impacted by the works will be contacted by Seychells directly.

Efforts will be made to minimise noise impacts to nearby businesses and residents. Some noise will be unavoidable during this period.

We appreciate your patience and cooperation while these important works are undertaken.
