

North-South Corridor Darlington Upgrade Project

Utility Service Relocation Works

As part of the Darlington Upgrade Project utility service relocation works are required to be undertaken along the following roads in Bedford Park;

- Riverside Drive
- Franklin Avenue
- Main South Road Service Road
- Wentworth Avenue
- Sutton Road
- Burbank Avenue
- Maidstone Road
- Lincoln Road
- Shepherds Hill Road

The works will be undertaken from **Monday, 31 October 2016 until approximately mid-December 2016**. Civil works (trenching and installation of pits) will be undertaken during the day between 7am and 6pm. When commissioning the newly relocated services, works will be undertaken at night to minimise disruption to your service supply. These night works will be minimal and when short, scheduled outages are required the Service Authority will provide you with direct notification prior to the works.

Lighting pole removals are required along Main South Road between Flinders Drive and Riverside Drive. The works will be undertaken between 8pm and 6am to meet safety and traffic requirements. These works will be occurring **late November for approximately two weeks**.

During construction activities, road users can expect changed traffic conditions. Temporary traffic arrangements and signage will be in place to alert motorists of detours and road users are asked to use extra caution when workers are on site. Property access will be maintained at all times.

The department thanks you for your patience and understanding, whilst these important infrastructure works take place.

If you have any questions at all please don't hesitate to contact us on 1300 759 334 or by email at dpti.darlington@sa.gov.au.

Kind Regards,
The Darlington Upgrade project team
