

# North-South Corridor

## Regency Road to Pym Street

### Demolition works

The South Australian and Australian Governments announced joint funding for the construction of a new section of the North-South Corridor, Regency Road to Pym Street. This will connect the already completed South Road Superway and the Torrens Road to River Torrens Projects. With the Northern Connector Project, due for completion in 2019, the Regency Road to Pym Street Project will complete a 47km non-stop roadway between Gawler and the River Torrens.

\$354m has been committed to construct the Regency Road to Pym Street Project (R2P) as part of their overall commitment to deliver a 78 km non-stop North-South Corridor from Gawler to Noarlunga. The R2P project will commence in 2019 with completion in 2022.

Demolition works for the project will commence in the first quarter of 2019.

#### About the demolition works

- The demolition works will be undertaken by one of the Department of Planning, Transport and Infrastructure's prequalified contractors.
- Prior to the demolition works, an asbestos assessment will be completed and any identified asbestos will be removed. All asbestos removal works will be carried out by a licensed asbestos contractor in accordance with the Environmental Protection Authority Guidelines. These measures will ensure the safety of the community and workers.

- Advance notice will be provided to local residents before works begin.
- Existing structures located on boundaries will be replaced with a 'like for like' fence, if required.
- Security patrols will be engaged to maintain a presence throughout the project area. Police patrols will also monitor the project area and can be contacted on 131 444, or 000 in an emergency situation.

#### Dust Management

Demolition works may create some short-term disturbance to nearby residents. Dust cannot be completely eliminated, however works will be managed to minimise the disturbance.
