

Flagstaff Road Upgrade Project

Upcoming night works and temporary detour

The Department for Infrastructure and Transport (the Department) is upgrading Flagstaff Road, between Hyland Avenue and Bonneyview Road. The South Australian government has committed \$32.9 million to deliver this program of work, which will improve travel times, capacity and safety for all users. The upgrade involves the installation of a fourth lane to make it a permanent two-way carriageway.

Over the coming weeks the following works will be undertaken:

- construction of a Shared Use Pedestrian Bridge and on road bicycle lane;
- installation of a Shared Use Path on the eastern side of Flagstaff Road;
- installation of road lighting;
- installation of safety barriers;
- installation of an Intelligent Traffic System (ITS), a system that monitors traffic and road conditions;
- installation of drainage; and
- asphalt placement.

In order to minimise the impact to road users, works will be undertaken at night **between Sunday 6 February and Friday, 25 February 2022, weather permitting**. The work will be carried out Sunday to Friday between 8pm and 5:30am. No works will be undertaken Saturday nights.

This work will also require the temporary **closure of Flagstaff Road, between Hyland Avenue and Bonneyview Road**. Vehicle and cyclist access will be closed from 8pm. The road will re-open at 5:30am each morning. Local access will be maintained at all times. Please see map over the page.

Some temporary pedestrian detours will also be in place around the works site and pedestrians are advised to follow directional signage. Every effort will be made to minimise impacts to the community.

Please see the maps over the page for traffic, pedestrian, cyclist and local traffic access information during this temporary detour. No works or road closures will occur on Saturday nights.

Day works will also continue from Monday to Saturday, between 7am and 6pm. Flagstaff Road will remain open during day works with speed and lane restrictions in place. Please take extra care when workers are on site. Observe speed limits, lane restrictions and traffic controllers when travelling through the area.

Some noise disturbance can be expected at times while these works are completed. You may also notice some odour which is common when asphaltting works are underway. Work will be managed to minimise disturbance to nearby residents and businesses, as much as practically possible.

There is no change to public transport services. Access for emergency service vehicles will be maintained at all times during these works.

Access to properties will be maintained throughout the works wherever possible, with advance notice provided if there is a need to temporarily restrict driveway access.

The Department appreciates your co-operation and patience while these important works are undertaken.
