

Flinders Link Project

Night Works

As part of the Flinders Link Project, night works for survey works and the installation of overhead wiring will be undertaken within the rail corridor at the Clovelly Park Railway Station on **Monday, 9 November 2020**.

Hours of work: Between 8pm Monday, 9 November until 5am Tuesday, 10 November 2020.

Location of works: Within the rail corridor at Clovelly Park Railway Station.

Some noise disturbance and low level vibration can be expected at times while these works are completed, however, the work will be managed to minimise disturbance to nearby residents and businesses as much as practically possible. Reversing beepers on worksite vehicles may be disruptive, however to ensure safety onsite during the works, they cannot be switched off.

Road closures

There are no planned road closures, however, localised traffic management will be in place during the works.

Observe signage and traffic controllers when travelling through the area.

Access to properties will be maintained throughout the works wherever possible, with advance notice provided if there is need for temporary restriction to driveway access.

Pedestrian access will not be affected by these works.

Public transport services

There is no change to public transport services during these works.

If you have any questions please contact us on 1300 928 345 or email: dit.flinderslinkproject@sa.gov.au.

Thank you for your patience while these important works are undertaken.

Kind regards,

Flinders Link Project Team
