

Princes Highway Corridor Upgrade

Roundabout upgrades, Mount Gambier

We are upgrading the Princes Highway Corridor, from Meningie to the South Australian/Victorian border, to improve long term safety and efficiency for all road users. The \$190 million Princes Highway Corridor program is jointly funded by the Australian (80%) and South Australian (20%) governments.

What's happening

Landscaping works, including irrigation installation will be undertaken at the O'Leary Road and Suttontown Road roundabouts on the Jubilee Highway West (Princes Highway).

How this affects you

To do this work safely, temporary speed and lane restrictions will be required during work hours. Please plan your trips, be cautious around workers, and follow the direction of traffic controllers and onsite signage. No restrictions will be required outside of work hours.

Some noise and dust disturbances can be expected while works are being undertaken, but we will minimise any disturbance to surrounding properties as much as practically possible.

No works will not be undertaken on weekends.
