

Princes Highway Corridor Upgrade

Works update

We are upgrading the Princes Highway Corridor, from Meningie to the South Australian/Victorian border, to improve long term safety and efficiency for all road users. The \$190 million Princes Highway Corridor program is jointly funded by the Australian (80%) and South Australian (20%) governments.

What's happening

We are upgrading the intersection of The Springs Road, Burrungule Road and Princes Highway to improve road safety and the quality of the road surface.

Current works include road widening to facilitate designated left and right turning lanes.

How this affects you

To do this work safely, speed and lane restrictions will be required. Please plan your trips, be cautious around workers, and follow the speed limits and signs.

Outside of work hours speed restrictions will remain in place, even when workers are not onsite. Some noise disturbance can be expected at times while these works are completed, however we will minimise disturbance, as much as practically possible. **Princes Highway will remain open at all times.**

Asphalt pavement works will be required, following completion of these works. **Advance notice will be provided prior to these works commencing.**
