

Streaky Bay Jetty

Structural Assessment Works

What's happening:

In December 2022, we advised that vehicle access to the Streaky Bay Jetty was being restricted until remediation works could be undertaken.

We will be undertaking work on the Steaky Bay Jetty in 2024 to extend the facilities life and improve user experience.

Prior to these works commencing, structural assessments and investigation works are required to determine the current condition of the jetty.

How this affects you:

To undertake these assessments safely, **the Streaky Bay Jetty will be closed to the public for two days in January 2024.** There may be some noise and vibration during works, but we will do our best to minimise impacts to the community.

We appreciate your patience and understanding while these important investigation works are undertaken.
