

Gawler Rail Electrification Project

Works Notification

As part of the Gawler Rail Electrification Project, the Department of Planning, Transport and Infrastructure (DPTI) advises that works will be undertaken adjacent the Gawler rail corridor.

Locations: adjacent the rail corridor, near Sixteenth Street, Gawler South, and Ashford Street, Gawler West (see map overleaf).

When: Intermittently from 7am, Tuesday, 8 October, until 5pm, Friday, 11 October, weather permitting.

Activities will include

- Relocating existing overhead power and communications cables to underground conduits.
- Installation of new, and removal of redundant, SA Power Networks poles on either side of rail corridor.

Traffic management:

- Fifteenth Street, Sixteenth Street, Rice Avenue and Ashford Street will be under traffic management while these works are in progress. Signage will be in place to advise motorists of changed conditions.
- During night works, there may be a need to close the corner of Sixteenth Street and Fifteenth Street at times to ensure the safety of work crews and motorists. While this closure is in place, diversions will be available via Fourteenth Street.
- Access to residential and business properties will be maintained at all times.

Details regarding any electricity outages will be managed and communicated by SA Power Networks.

Work crews will make every effort to minimise the disturbance to residents and businesses.

Thank you for your patience as we undertake this important project.
