

North-South Corridor

Darlington Upgrade Project

Weekend and night works

Friday 3 November – Monday 6 November 2017 and

Friday 10 November – Monday 13 November 2017

Ayliffes Road, St Marys

As part of the Darlington Upgrade Project, weekend and night works will be undertaken on the eastbound carriageway of Ayliffes Road, immediately north of the South Road/Shepherds Hill Road intersection, on the dates and times specified below:

- 8pm Friday 3 November until 6am Monday 6 November 2017
- 8pm Friday 10 November until 6am Monday 13 November 2017

The works will involve the installation of a new sewer main requiring the use of the following machinery: an excavator, trucks, pumps, road saw, compaction equipment and lighting towers. Saw-cutting activities will be undertaken only between the hours of 8pm and midnight.

Some noise disturbance can be expected at times while these works are completed. However, the work will be managed to minimise disturbance to local residents as much as possible.

Traffic Management

- Ayliffes Road will remain available during the works, with eastbound traffic through the work area reduced to two lanes and westbound traffic reduced to one lane.
- Single lane closures will be in place on South Road and Shepherds Hill Road at the intersection.
- Speeds will be reduced to 40kph in the vicinity of the work area.
- Access to Adrian Brien will be maintained at all times during the works. Please follow on-site signage which will direct motorists to access points.

Please plan ahead, allow extra travel time, take extra care when workers are on site and observe speed and lane restrictions when travelling through the area.

If you have any questions or would like to speak to a member of the project team who will be available 24 hours, seven days a week, please contact us on 1300 759 334 or alternatively email: enquiries@gatewaysouth.com.au.

Kind Regards,
Darlington Upgrade Project Team
