

Gawler Rail Electrification Project

Works Notification

As part of the Gawler Rail Electrification Project, the Department of Planning, Transport and Infrastructure (DPTI) advises that works will be undertaken in and adjacent to the rail corridor in Smithfield.

Location: Along Anderson Walk, Smithfield, in the vicinity of the rail corridor (see map overleaf).

When: Intermittently, from 7am Monday, 30 September until 5pm Friday, 4 October (weather permitting). Some night works will be required on the Monday, Tuesday, Wednesday and Thursday nights.

Activities:

- Installation of new SA Power Networks poles.
- Installation of new underground cables under the rail corridor.
- Removal of redundant SA Power Networks poles and overhead wires.

Traffic Management:

- Speed and lane restrictions will be required on Anderson Walk; signage and traffic management will be in place to advise motorists of changed conditions.
- At least 1 pedestrian crossing across the rail line will remain open at all times.
- The Anderson Walk road level crossing will remain open from 6am to 8pm every day. From 8pm to 6am, the road level crossing may close at times if required, with detours in place.
- Access to residential and business properties will be maintained at all times.
- Access to and from the Smithfield railway station car park will be available at all times via the Mordialta Drive / Warooka Crescent roundabout.
- There will be no impact to passenger train services.

Some short-term electricity outages are anticipated for these works, and will be communicated to residents and businesses by SA Power Networks.

Work crews will make every effort to minimise the disturbance to residents and businesses.

Thank you for your patience as we undertake this important project.
