

# Torrens Street and Crozier Road Roundabout Project

Dear Resident / Business Owner,

The Department of Planning, Transport and Infrastructure (DPTI) is installing a roundabout at the intersection of Torrens Street and Crozier Road, Victor Harbor to improve road safety and traffic efficiency and to reduce the risk of rear end crashes.

Early works are underway and major construction is expected to commence on 5 March, with project completion expected in mid-2020, weather permitting.

DPTI has engaged Camco (SA) Pty Ltd to undertake construction of the project which will include:

- Road widening
- Road construction and asphalt surfacing
- New kerb and gutter, and median construction
- New pedestrian refuges and ramps
- Upgraded LED street lighting
- New line marking.

The majority of works are expected to be undertaken between 7am and 5pm, Monday to Friday, however some weekend and night works may be required.

As the project progresses, it will be necessary to close the roads to undertake the final asphaltting. Detours will be in place during this period and more information will be provided to the community as it becomes available.

At all other times roads will remain open to traffic with one lane in each direction during construction, with a 25km/h speed restriction in place. Road users are asked to use extra caution when workers are on site, follow the direction of traffic management and observe traffic signage and speed restrictions when travelling through the area.

Some temporary pedestrian detours will be in place around the works site and pedestrians are advised to follow directional signage. Every effort will be made to minimise impacts and ensure that access to businesses and properties is maintained throughout the works.

DPTI appreciates your co-operation and patience while these important works are undertaken. Should you require further information regarding this project please contact:
