

# Grand Junction, Hampstead and Briens Road Intersection Upgrade

The Australian and South Australian Governments are jointly funding the \$19 million upgrade of the Grand Junction, Hampstead and Briens Road intersection to improve travel times, network reliability and safety for all users.

The current proposed treatments for the intersection include:

- widening of Grand Junction Road (east side), with the extension of the right turn lane onto Briens Road travelling northbound, signalised left turn lane onto Hampstead Road travelling southbound, and three through lanes on Grand Junction Road;
- widening of Grand Junction Road (west side), with the installation of dual right turn lanes onto Hampstead Road travelling southbound and three through lanes on Grand Junction Road;
- widening of Briens Road to accommodate dual right turn lanes onto Grand Junction Road travelling westbound and signalised left turn lane onto Grand Junction Road travelling eastbound;
- widening of Hampstead Road, to accommodate the proposed treatments;
- upgraded pedestrian crossings within the intersection, including new pedestrian crossing lights and ramps;
- dedicated bicycle lanes on all approaches;
- pavement construction and surfacing; and
- new and upgraded traffic signals, road lighting, line marking, and drainage.

## Have your say

The Department of Planning, Transport and Infrastructure would like to invite the community and stakeholders to provide feedback on the concept design. Your feedback will be provided to the project team for review and consideration and will help inform the detailed design.

To view the draft concept design and provide feedback, please visit the project website at: [www.dpti.sa.gov.au/hampstead](http://www.dpti.sa.gov.au/hampstead). Feedback can be provided until COB Friday 24 April.

## Early site investigation works

As part of the early design process, site investigation works to identify the location and depth of all utility services in the vicinity of the proposed upgrade will commence Monday, 30 March, continuing throughout April.

These works will be undertaken during the day, Monday to Friday, between the hours of 9am and 4pm, weather permitting.

Access for emergency services vehicles, pedestrians and properties will be maintained at all times.

Pedestrians are reminded to keep clear of the work zones, however traffic management will be in place throughout these works to assist with pedestrian and cyclist movements.

Some noise disturbance can be expected at times while these works are completed, however the work will be managed to minimise disturbance to local residents and businesses as much as practically possible.

Please plan ahead, allow extra travel time and take extra care when workers are on site. Observe speed limits, lane restrictions and traffic controllers when travelling through the area.

Early works are expected to commence in the third quarter of 2020, with main works expected to commence in early 2021, weather permitting.

If you require further information or would like to register your interest in the project, please visit the project website, email [dpti.communityrelations@sa.gov.au](mailto:dpti.communityrelations@sa.gov.au) or telephone 1300 794 880.
