

Gawler East Link Road Project

Dear Resident,

As part of the Gawler East Link Road Project, new kerbing, and driveway crossovers will be installed on Potts Road, between Main North Road and Bowman Court, Evanston Park.

Potts Road - Driveway works

Dates: Commencing the week of 3 February, weather permitting.

Work hours: 7am to 4:30pm

Property owners are advised that driveway access to each property will be inaccessible for approximately:

- 24 hours while Stage 1 of these works is undertaken; and
- 72 hours while Stage 2 of these works is undertaken.

Property owners will be contacted prior to works being conducted to discuss accessibility requirements and alternate parking arrangements.

Stage 1: kerbing placement (24 hour interruption)

The 24 hour interruption to driveway access will allow the following works to be undertaken:

- Installation of temporary bunting and temporary access requirements.
- Placement of new parking bay kerb.
- Time for the concrete to harden/strengthen.
- Backfill between the existing driveway and new kerb.

Stage 2: concrete driveway construction (72 hour interruption)

The 72 hour interruption to driveway access will allow the following works to be undertaken:

- Installation of temporary bunting and temporary access requirements.
- Excavation of the existing driveway.
- Placement of rubble base.
- Concreting of the driveway to the property boundary.
- Time for the concrete to harden/strengthen.
- Backfilling/reinstating edges of the driveway.

There will be some unavoidable noise and vibration whilst these works are being completed. Every effort will be made to minimise the disturbance to residents as much as practically possible.

Traffic management: speed and lane restrictions will apply in the vicinity of the works, with traffic management in place to advise motorists of detours and changed traffic conditions.
