

Temporary Traffic Staging Overview

LEGEND

-  Work Area
-  School Precinct
-  Business Precinct

- Commencing May 2019, temporary traffic restrictions are required to be implemented on Main North Road to enable the construction of the Gawler East Link Road and the Tulloch Road Intersection Upgrade Projects.
- To minimise traffic impacts, construction work will be undertaken as a combination of day and night works. Night works will be managed to minimise disturbance to the local community as much as possible and adjacent residents will be provided with advance notice.
- Short term (overnight and/or out of hours) property access closures may be required during final asphalt works. Businesses and residents will be provided with prior notification.
- **Access to local businesses in the area will remain open whilst these works are in progress. Please support your local businesses.**
- Main North Road will remain open to traffic in both directions at all times with speed and lane restrictions while the works are in progress.
- Pedestrian access and thoroughfare shall be maintained during the works. Clear signage and traffic management will be in place to direct pedestrians where temporary changes in routes are required.
- Signage and traffic management will be in place to advise motorists of changed conditions and will be in place to direct motorists to local businesses.
